

The Most Valuable Package of Investment Information That's Ever Been Offered...

And It's Yours FREE For 30 DAYS!

Featuring...

The System That Turned In 25-Month Gains of 229.3%

Dear J,

I'm writing you today with a very simple purpose: I would like to give you more than \$4,315 worth of investment intelligence FREE for 30 days.

I have made arrangements to provide a select group of investors with more than \$4,315 of investment intelligence -- including access to a service that produced 229.3% profits for its readers in 25 months -- at no cost or obligation whatsoever.

Why would I do such a thing?

It's simple, really. My partners and I have assembled the most powerful investment advisory team on the planet. After working around the clock for the better part of the past two years to refine our lineup of experts, I feel confident that our service -- **21st Century Alert** -- is the most comprehensive and profitable of its kind anywhere in the world.

Unlike the countless other solicitations you receive nearly every day (and if you're like me, you receive a bundle of them), I propose to do something different. I recognize that your time is valuable and that the need for accurate, timely investment intelligence is now greater than ever.

So, let me get right to the point: **I feel so strongly about the value of my service that I'm willing to do two things that are virtually unheard of in this business:**

First, I'm willing to **publish our trading record**.

I have absolutely nothing to hide. NO secrets. Think for a moment about some of the other "offers" you've seen in the past...how many times have you wished you could see the service's track record before subscribing? Well, with **21st Century Alert** you can.

A new window will appear with our track record of the 25-month period I've referred to. There is no commitment involved for you to examine this information -- because I have absolutely no secrets.

The second thing I'm willing to do that virtually no one else in the industry is willing to do is **GIVE AWAY my service for 30 days free.**

That's right -- I want you to see for yourself -- FREE for 30 days -- just how impressive our collection of experts really is. You'll not only have total access to the advisory service that produced 25-month gains of 229.3% -- without a single losing trade -- you'll also have access to thousands of dollars worth of investment research and information...all at no charge whatsoever.

I'm so sure you'll be impressed that I won't ask for a penny until after your 30 days are up. How many services do you know that are willing to go THAT far? You get instant access to over \$4,315 worth of information and advice from experts like:

David Nichols, whose daily *Morning Briefing* -- a \$295 value -- is your key to understanding what happened in yesterday's market and precisely what's going to happen today. You'll get specific advice on the BEST way to take advantage of the market, no matter where it's going.

Judy Alster, whose *21st Century Update* spells out specific buy/sell strategies that resulted in a 145% profit during a period of two years when the S&P was down 36%!

Adam Oliensis, whose service, *The Agile Trader* -- another \$295 value -- brings you the insights of a man who had 114% returns in five months (273% annualized); in May his first 8 trades delivered a 9.7% profit in 7 days. That works out to 505% annualized!

Sven Monberg's Superstock Investor -- a \$395 value -- has been around for 28 years. Along the way it's developed a reputation for spotting stocks that jump 20%, 50%, or more -- sometimes in a single day -- because they've become takeover targets.

Bill Johnson, whose *IRA, Covered Call and Options Report* -- a \$195 value -- shows you how -- using an intelligent, very conservative options strategy -- you can steadily rack up profits of 20%, 40%, even 70% a year...while "playing it safe."

But that's just the beginning. The fact is there are 18 other services you'll also receive -- absolutely FREE -- just for signing up for *21st Century Alert*.

I'll get to those other services in just a moment. But first I want to make an important point: The sheer volume of information that you'll receive as part of this one-of-a-kind offer may seem like more than can be easily digested. But that couldn't be further from the truth.

Our comprehensive service -- including the 23 services you'll receive FREE of charge -- is designed to cover every important investment base. To have access to such comprehensive research -- and accurate advice -- FREE for 30 days would be like a golfing enthusiast moving up from a weekly session with a club pro to a 30-day hands-on program with Tiger Woods and 20 of the very best golfers in the world. It's an opportunity that is simply too good to pass up.

What's more, if your portfolio is worth \$100,000 or more, you can't afford *not* to take advantage of this professional's service.

Morning Briefing

Use it for 30 days FREE and you'll see why. Pounce on just a single trade recommendation and you could pay for the service a hundred times over!

Professional traders and savvy individuals who have acted on the exact same kind of intelligence and recommendations you'll find posted on **21st Century Alert's** Web site right now have made huge "overnight" profits of as much as 288%!

Now, I mentioned earlier that I had only given a partial list of the advisory services and newsletters that you'll have access to as part of this trial offer.
