# Feel Younger, Stronger and More Energized... And Say "Goodbye" to Prostate Problems Forever!

Dear Friend,

*Time is running out.*

The fact is – **90% of men in North America are on a collision course with a dangerous threat to their sex drive and male health.**

Right now – if you're over the age of 40 – there's a better than 50% chance you already have some degree of prostate-related health problems.

And, the likelihood of you suffering from those problems goes up every year.

Listen – I have a hectic schedule just like you...so I know how easy it is to brush aside potentially embarrassing symptoms.

I'm talking about **frequent** bathroom trips...**weak** urine stream...or even **difficulty** maintaining erections.

*But those symptoms are truly just the beginning.*

**The fact is – serious, health-threatening problems are in your future if you neglect your prostate health.**

But now, thanks to a "**Miracle Prostate Solution**" – a natural health breakthrough found to be **3,000 times stronger than saw palmetto** – you could soon have the secret to a lifetime of outstanding prostate health.

Not to mention relief from embarrassing symptoms...

\* **Say goodbye to a weak or "stop-start" urine stream.** You'll soon step up to the toilet with confidence and urinate with the same force you had when you were a teenager!

\* **Drive more than 100 miles – or sit through an entire movie – without another time-wasting trip to the men's room.** You'll be shocked at how much extra time you have when you don't have to "take a pit stop" every hour or so.

\* **Put the spark back into your bedroom** as your confidence, stamina and sexual power are restored to the levels of your younger years.

But that's truly just the beginning. This "miracle" prostate health discovery has also surprised dozens of satisfied patients by helping them feel stronger and full of energy.

***Simply put...it's the key to help you start living like a healthy, young man again!***

Now before I spend another second telling you about what this **Miracle Prostate Solution** can do for you...I must explain why it's so important you take action **right now...**

## The Ticking Time Bomb that is Your Prostate

The numbers tell a *frightening* story.

*By age 40, over half of all men already have some degree of prostate health problems.*

By age 50, that percentage soars to 75%...

And according to the National Institute of Diabetes and Digestive and Kidney Diseases, as many as *90 percent of men in their 70s and 80s may suffer with serious HEALTH THREATENING prostate problems.*

Listen – if you’re over the age of 40 and you’ve never even *thought* about prostate trouble...I congratulate you on your good fortune.

But please...don’t push your incredible luck for even one more day!

With every year that passes, the likelihood grows that you’ll develop symptoms like...

- \* *Frequent bathroom trips resulting in sleepless nights...*
- \* *Difficulty starting urination -- and a weak or “stuttering” urine stream...*
- \* *Trouble getting and maintaining erections...*
- \* *Painful urination and/or blood in your urine...*
- \* *And loss of energy and decreased sex drive.*

I tell each and every one of my patients the same thing I’m telling you right now...

**There is nothing more important to your male health – and your overall well-being – than a healthy prostate.**

And I believe strongly that every man over 40 should take charge of his own prostate health immediately – by making a proactive, intelligent decision...

Unfortunately – until just now – most of the options

(See page 4...)

## Don’t Tell Your Loved Ones, “It’s Nothing!”

Do you suffer from any of these “warning sign” symptoms?

- ☒ Frequent – sometimes *urgent* – bathroom trips
- ☒ Trouble having erections
- ☒ Insomnia caused by urgency to urinate
- ☒ Blood in your urine
- ☒ Difficulty starting urination
- ☒ Weak or “stuttering” urine stream
- ☒ Pain or discomfort when urinating

If you’re suffering with any of these symptoms, I beg you...don’t tough it out!

Your symptoms are likely to get much worse if you ignore these sure-fire warning signs of declining prostate health.

My name is Dr. Mitchell Matez, and I’m writing today to let you know there is a safer, smarter natural health breakthrough that can help you... starting today.

And remember – the sooner you start attacking the problem, the more likely you are to avoid suffering a ruined sex life or tragic health issues.

So please...if you’re showing any of the symptoms I’ve listed above, get yourself to a doctor right now! And, to help stay away from prostate trouble for good, take a few minutes to read the great news in this special report – it may just save your life!

# Until Now...You've Likely Had Just Three Choices When it Comes to Your Prostate Health

for dealing with prostate-related health problems haven't been good ones.

## Option #1: Surgery...the Most Painful Choice

I don't want to get too graphic here...

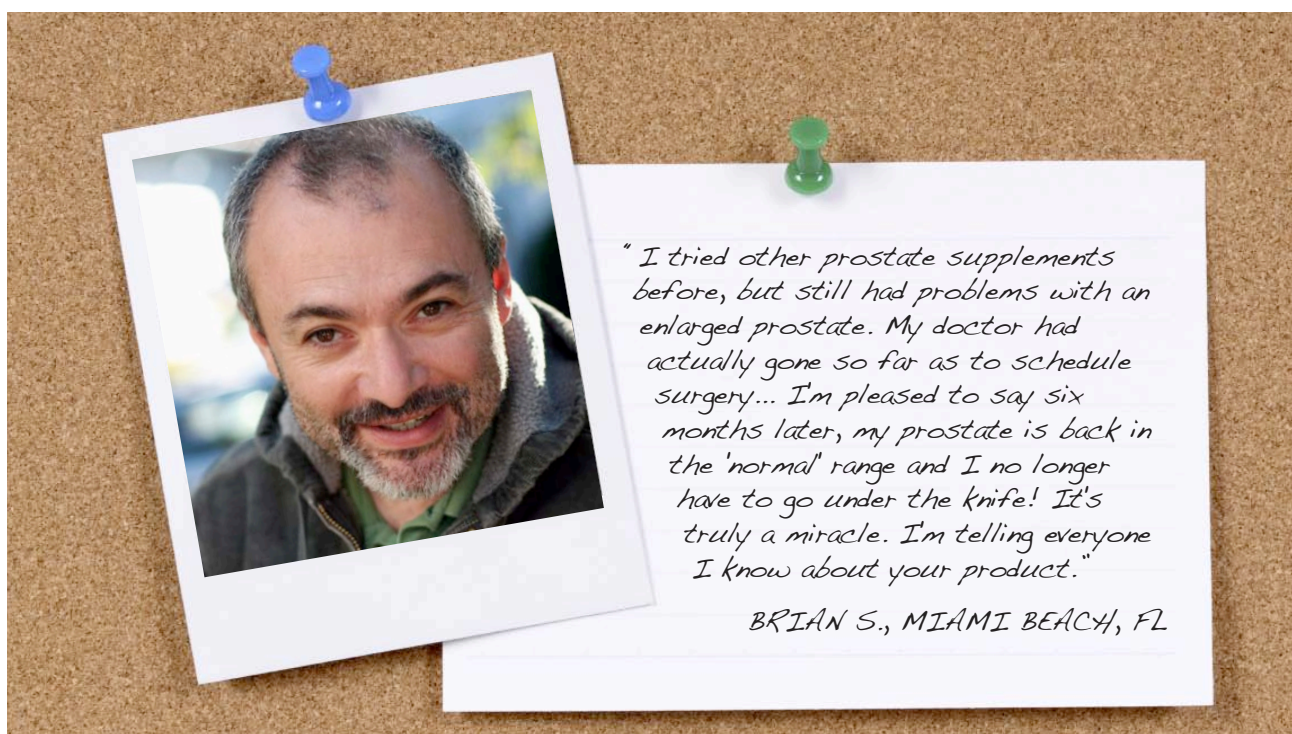

But the most common surgery choice for BPH (Benign Prostatic Hyperplasia or "swelling") involves the surgeon *literally passing the instruments up the urinary opening in the penis* to the location of the prostate.

This procedure is known as a transurethral resection of the prostate (TURP) and it involves peeling away or "*shaving off*" *layers of the enlarged prostate tissue*.

As painful as that may sound – and I cringe just thinking about it – the risks involved are even worse for the 1.2 million or more men each year who undergo surgery for BPH.

That's because side effects like erectile dysfunction (up to 14% of the time), incontinence and painful ejaculation are associated with this form of "treatment."

No, thanks.

**FREE Gift – See Page 14 Now!**

## Option #2: Prescription Drugs and their Dangerous Side Effects

Those television ads – with their “catchy jingles” – sure make prescription drugs seem like a great choice for dealing with an enlarged prostate, don’t they?

*Here’s what they don’t tell you...*

The side effects associated with prescription “solutions” for BPH are dangerous...and they deal directly with your sexual potency.

Take a look at this [partial list](#) of side effects reported from three popular prescription BPH drugs...

- |  |  |
|--|--|
| * <i>Decreased sex drive</i>           | * <i>Diarrhea</i>                          |
| * <i>Breast enlargement</i>            | * <i>Back pain</i>                         |
| * <i>Abnormal ejaculation</i>          | * <i>Sore throat</i>                       |
| * <i>Dizziness, headache, fatigue</i>  | * <i>“General” body pain</i>               |
| * <i>Inability to have an erection</i> | * <i>Upper respiratory tract infection</i> |

## Option #3: Saw Palmetto...a Step in the Right Direction

Compared to the first two options...saw palmetto seems like an excellent choice.

After all, we’re dealing with a natural alternative to surgery or prescription drugs – so there’s no need for a lengthy list of dangerous side effects. (Not to mention the fact that I don’t have to *think* about a surgeon passing instruments through the urinary opening in the penis ever again.)

## ***Shocking Research: Can the leading BPH drug cause prostate problems?***

Scientists were desperately hoping the leading prescription drug for BPH might also reduce a man’s risk of life-threatening prostate problems.

They studied a group of 52 men with a high PSA (Prostate Specific Antigen) count.

Half were given name brand mainstream drugs, while the other half took nothing. Yet, 8 of the 27 men who took the drug developed severe problems compared to only one of the 25 men who took nothing.

Researchers then looked at men with serious prostate issues who took the drug. 75% of the drug-takers developed life-threatening problems in just one year.

**We already knew these drugs could sabotage your sex life...**

So I personally wasn’t too surprised to find these punishing drugs may endanger you in other ways. A much larger study is underway.

Please...if you’re being tested for BPH, tell your doctor about these findings! Better still, show him the news about the **Miracle Prostate Solution** revealed in this report.

And according to the Mayo Clinic...

*“Numerous human trials report that saw palmetto improves symptoms of Benign Prostatic Hypertrophy (BPH) such as nighttime urination, urinary flow, and overall quality of life.”*

Again – when compared to the risks involved with surgery or the side effects associated with prescriptions – saw palmetto *seems like* your best alternative when it comes to prostate health.

At least it used to seem that way -- until...

# Your best option... Option #4: A Natural "Prostate Miracle" 3,000 Times More Effective than Saw Palmetto

Until recently, Saw Palmetto was still the natural treatment of choice when it came to prostate care. But now – after 500 years – scientists have “cracked the code” that powers this remarkable plant.

We finally unlocked the secret inside and it's 3,000 times stronger than Saw Palmetto!

We call this biochemical miracle BETA-SITOSTEROL (pronounced BAY-tah SIGHT-oh-STAIR-all). And it could very well turn out to be the greatest male health discovery of all time.

Trace amounts of beta-sitosterol are found in saw palmetto, soybeans and other prostate-friendly plants.

But the concentrated essence is shown to be significantly more effective than any herb on the market today.

**"The Most Powerful Prostate Relief for Men Available"**

*Proven to out-power yesterday's prostate solutions, REJUVENATE™ Plus with beta-sitosterol powers up the rest of your body too!*

The quote above comes from a colleague of mine who tried beta-sitosterol himself.

And, loads of medical studies show he's right on the money. When doctors at the Veterans Administration in Minneapolis compared it to a host of other prostate supplements, they concluded it shows "the greatest efficacy amongst phytotherapeutica substances," which is a fancy way of saying...

## Your Choices For Prostate Health

### Painful Option #1: Surgery

Last year more than 1.2 million men underwent surgery for BPH. But keep in mind – the most common procedure involves the surgeon *passing instruments up the urinary opening in the penis* and then "shaving" away layers of the enlarged prostate tissue. And side effects include erectile dysfunction, incontinence and/or painful ejaculation.

### Dangerous Option #2: Prescription Drugs

Millions of prescriptions are written – and billions of dollars spent on advertising – each year for potentially dangerous BPH-related prescription drugs. Three of today's most popular prescription drugs come with side effects like breast enlargement, decreased sex drive, inability to have an erection.

### Yesterday's Option #3: Saw Palmetto

Saw Palmetto provides a natural, proven alternative to surgery or prescriptions...and until recently it was the natural treatment of choice for proactive prostate care. That is... until something 3,000 times more powerful was discovered...

### Your Best Option: REJUVENATE™ Plus with Beta-Sitosterol

Dozens of detailed, double-blind studies at prestigious institutions all over the world have shown that beta-sitosterol beats every prostate therapy examined in 30 years of research. This Miracle Prostate Solution works like high-octane fuel for a sputtering prostate, but that's really just the beginning...

**FREE Gift – See Page 14 Now!**

## It beat every prostate therapy they examined in 30 years of research!

I'll spare you the eye-popping details of *dozens* of other classic, double-blind studies, performed at the University of Rome, the Hospital Ambroise in Paris, the University of Padova in Italy, the University of Dresden, Germany, and other top research centers throughout the world.

*Here's the important th-ing to remember:*

**Scientific studies indicate that beta-sitosterol consistently improves urinary symptoms related to prostate enlargement.**

And, beta-sitosterol is one of the primary components of a breakthrough formulation from the scientists at Goldshield known as **REJUVENATE™ Plus for Men**.

I'll tell you more about this powerful formulation – including the other cutting-edge nutrients...and how you can get yours *right now* – in just a moment. But first, you should know...

## Beta-Sitosterol Helps Men in the Bedroom As Well

When we scientists asked the question, "What else can beta-sitosterol do?" what we learned was

absolutely startling!

You see...your prostate is actually a sex organ. A "switch" that powers the pump.

And attending to its health needs now could save your manhood and your life.

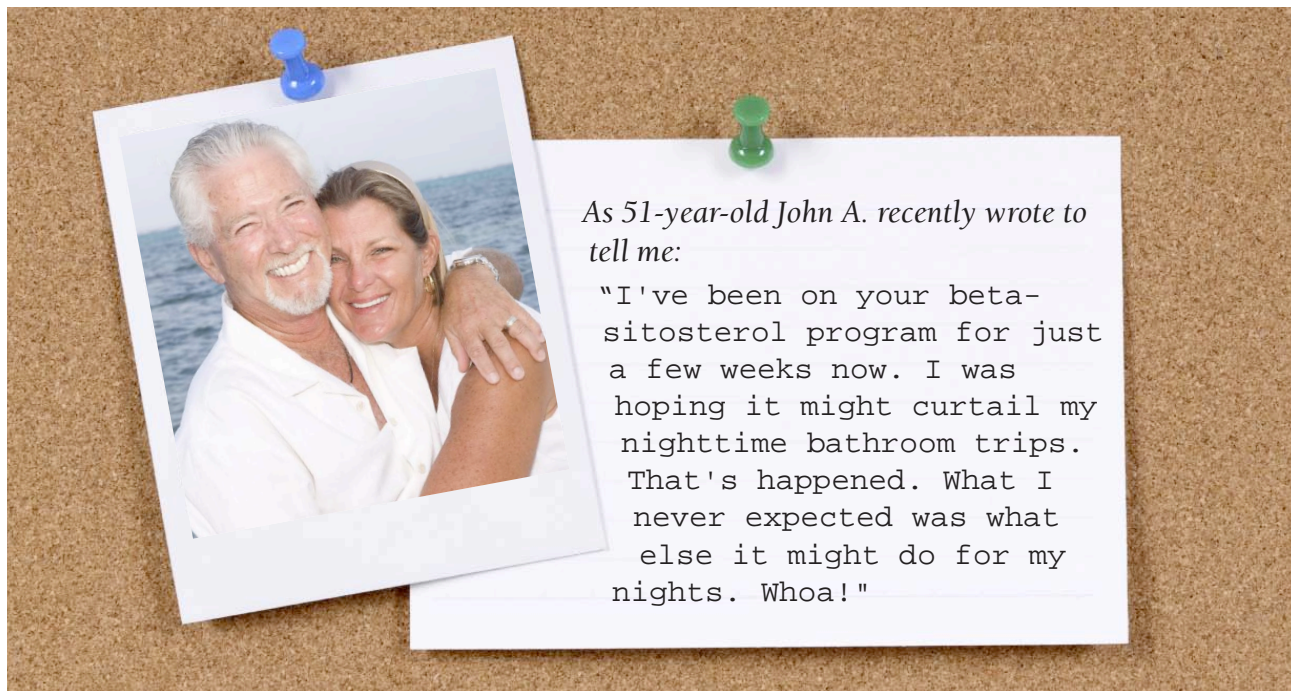

The sexual benefits associated with beta-sitosterol are making formerly frustrated men stand up and cheer. In fact, while prostate drugs and surgeries can destroy sexual performance, my own patients are reporting a startling upswing in great sex...

Well, of course nutrition is a better way to go. Drugs that give men erections do nothing to nourish your penile control center, your prostate and support its healthy functioning. But a daily program of key nutrients can achieve this almost like magic.

*Don't try this when you're driving!* Did you know there's a spot on your prostate gland that triggers an instantaneous erection when your partner tickles it? All she needs to do is find a tiny area located just below your testicles.

And, that's just one example of how a healthy prostate powers your penis.

In fact, this marvelous gland is the command-and-control center for just about everything your penis does. It's almost like a second brain, passing on orders that

*As 51-year-old John A. recently wrote to tell me:*

"I've been on your beta-sitosterol program for just a few weeks now. I was hoping it might curtail my nighttime bathroom trips. That's happened. What I never expected was what else it might do for my nights. Whoa!"

# Did You Know **Your Prostate** Is a Power Switch?

That's right...your prostate is the "power switch" that turns the penis on and off. Hidden within this walnut-sized gland are nerves and muscles that trigger erections, make you ejaculate and unleash (or hold back) your urine flow. But if you'll just maintain this powerful instrument with the respect it deserves, great sex naturally follows.

empower urinating and potency. The downside, of course, is that...

**Just a little prostate swelling can strangle your sexual nerve center.**

And, if you're already having trouble urinating or with sexual performance...the last thing you want to do is take a knife to these nerves!

Attack your prostate with surgery or punishing drugs and what else can you expect but fatigue, pain and a non-existent sex life? Yet, if you'll just give your prostate the nutritional fuel it's asking for, you won't just feel less discomfort, but very possibly the best sex you've had in years.

**And, don't be surprised if YOUR ENERGY SURGES, TOO!**

My patients are often stunned by how strong and energetic they feel once they put their prostates back on track. Why? Well, if your car engine exhaust valves get blocked, you know what happens. No more power.

Same thing with your own exhaust system. When prostate swelling blocks your urine stream, it subtly poisons your system. Get things flowing again and you literally flush that trouble down the toilet.

Now, I've already briefed you about how beta-sitos-

terol works like high octane fuel for a sputtering prostate, in concentrations 3,000 times stronger than you'll find in saw palmetto. But we're not going to rest well with this alone. Because now you can do much, much better.

## Introducing REJUVENATE™ Plus – Beta-Sitosterol Made Seven Times Better: It's the Ultimate Prostate Fuel!

Thanks to years of work by the scientists at the high-tech nutritional firm, Goldshield, we've greatly multiplied the power of beta-sitosterol.

*"Studies have shown beta-sitosterol to improve urinary symptoms and flow."*

*-- New York Times*

You see, amazing as it is, beta-sitosterol is just one of many natural breakthroughs that are helping us men beat the prostate pandemic. So the Goldshield team went to work with me, developing the ultimate prostate formula – and we call it **REJUVENATE™ Plus!**

*(Continued on page 10...)*

**FREE Gift – See Page 14 Now!**

**Great health shouldn't be secret, so I'll give the full formula right here. In addition to beta-sitosterol, our REJUVENATE™ Plus formula also includes...**

### **Pygeum Africanum Extract**

For centuries, African tribesmen have been using the bark from this African tree when they have trouble down below. And in modern France, over 80% of doctors' prescriptions for BPH include pygeum extract. They're no fools! New research shows that men taking pygeum are twice as likely to improve their prostate health.

### **Amino Acids**

REJUVENATE™ Plus contains three fundamental amino acids necessary for your prostate and sexual health; L-Glycine, L-Alanine, and all-important, L-Arginine. The prostate gland does produce them naturally, but a landmark research study showed that men who increased their levels of all three of these amino acids had improved relief from nighttime urination, urgency and delayed urine flow. The study also showed that the amino acids were responsible for reducing prostate size and fluid retention in over 90% of the cases studied. L-Arginine is especially critical for male sexual health. L-Arginine speeds necessary oxygen cells in the bloodstream to the penis during sexual arousal providing for a stronger, firmer, harder erection. Without the boost L-Arginine provides, your sex life might be a thing of the past!

### **Zinc Arginate**

The latest research suggests that higher levels of Zinc are found in healthy prostate tissue. Zinc is necessary for male sexual and prostate health. I insist on zinc arginate because this is the kind used in clinical studies.

### **Pumpkin Seed Concentrate**

Any frontier farmer could tell you pumpkin seeds help you pee better, but only lately did scientists get around to testing this. Over in Germany, scientists studied more than 2,245 men, and reported a whopping 41.4% improvement in prostate health. Here again, I specify the concentrated extract used in the research.

### **Lycopene**

You'd have to be a hermit not to hear the news about tomatoes and prostate health, but lost in the hype is the fact that raw tomatoes are not the best way to get lycopene. They're too tough to digest! In fact, researchers recently concluded "lycopene supplements can protect the prostate and help keep it healthy." Keep eating tomatoes, but play it safe and make sure you also take the highly digestible lycopene that I specify.

### **Soy Isoflavones**

Soy's all the rage but you'd need to eat heaps of tofu to get enough of the soy isoflavones that are responsible for this good news. When researchers gave lab subjects isoflavone supplements, they reported "Soy Isoflavones helped to keep the prostate healthy and working normally." If you enjoy soy, that's fine, but be sure to supplement too.

### **Saw Palmetto**

Yes, of course I include saw palmetto in my formula, and I'm careful to specify the extract that's produced such fine results in clinical studies.

Researchers have found that, all by itself, it shows "a clear superiority...in comparison to conventional therapies."

## The Best Kept Secret About REJUVENATE™ Plus – Stinging Nettle Root

Used in Europe as a remedy for prostate problems, Stinging Nettle Root (*Urtica Dioica*) is approved in Germany as a drug because it safely and effectively reduces prostate inflammation. This natural health booster provides rapid relief from bladder sensitivity and prostate swelling.

When taken with the other powerful nutrients in

REJUVENATE™ Plus, Stinging Nettle offers FAST relief and daily nutritional support for your entire reproductive health and sexual vitality.

This all may seem like a  
lot, but...there's no need  
to sweat it...

Listen...you could spend weeks trying to hunt down all these ingredients in the correct forms, shell out a small fortune in the process and *still* not have what it takes for optimum prostate protection.

*"Beta-sitosterol may aid prostate health."*

-- Los Angeles Times

But as of today, that's no longer a problem. Because my colleagues at Goldshield have just introduced a brand-new, massively improved REJUVENATE™ Plus, containing all of these nutrients, in the exact forms, dosages and ratios

# Breakthrough REJUVENATE™ Plus acclaimed as "Truly a Godsend for All Men"

## **"My sexual performance and drive have taken off"**

"After suffering for over eight years, I feel like a new man. My sexual performance and drive have taken off completely since I started on REJUVENATE. My wife and I can't thank you enough for the difference this has made in our lives."

ABE C., BASKING RIDGE, NJ

## **"My PSA count went down to 0.1 and my prostate was not as swollen"**

"I started taking REJUVENATE about a year ago. At that time my PSA count was high and my prostate was swollen. At my last doctor appointment, the doctor was pleased to see my PSA count went down to 0.1 and my prostate was not as swollen. I am so thankful to have been introduced to REJUVENATE."

HARRY, WI

## **"No more painful, restricted urine flow"**

"For months I was getting up five, six times a night to go to the bathroom only to produce a slow, often painful stream of urine. Then my wife got me to try REJUVENATE. Now I sleep peacefully through the night, and have no more painful, restricted urine flow."

JOE P., NEW YORK, NY

## **"Best product in the world"**

"Within five days of taking REJUVENATE, my life completely changed. I became a new man; looking and feeling healthier. I was having prostate problems and the doctor scheduled me for surgery...luckily I found out about REJUVENATE and did not go through with the surgery. Shortly after starting on the product, I no longer needed to get up at night as many times and it made me frisky. I wore out two pairs of tennis shoes chasing my wife around the house! REJUVENATE is the best product in the world."

HAROLD, MN

## **"No more pain"**

"I was getting up five, six times a night to use the bathroom and many times experience pain when urinating. After trying REJUVENATE I noticed results in a few weeks, and now I only wake up once or twice a night and no more pain, too. Now I sleep peacefully through the night, and have no more painful, restricted urine flow."

TOM, MI

## **"Slept through the entire night"**

"Before taking REJUVENATE for Men I used to get up at least three times a night to go to the bathroom. Within days of starting the product, I slept through the entire night. I continue to take REJUVENATE and it's still working great!"

FRANK, NC

## **"My sexual energy level is off the charts."**

"I have been using Goldshield's REJUVENATE for several months now and I am so pleased that I have committed myself to using this product for the rest of my life.

Prior to being introduced to this product, I was having severe problems with loss of sexual drive, waking up many times throughout the night to urinate, wanting to urinate but no pressure and very little flow. My doctors even found small traces of blood in my urine. I found myself feeling so tired, drained and irritable almost every day.

However, since I have been using this product, my sexual energy level is off the charts. I feel like an 18 year old all over again. My sleep is uninterrupted. I do not have those sudden urges to run to the bathroom every few minutes, my PSA level has started to fall off."

## You've Only Got One Prostate so Protect it at ALL Costs

Remember, this sexual master gland is even more important than your testicles. Yes! Even if you lose both testicles (heaven forbid), you can always get a testosterone patch.

**There's no such thing as a prostate patch!**

When it's gone, game over. So give yours the respect it deserves. Make sure you're getting the optimum daily dose of beta-sitosterol and all 11 other essential healthy prostate nutrients. And please, whether you hunt them down by yourself or use the convenient new **REJUVENATE™ Plus**, make sure you're taking them in **CAPSULE FORM**.

Because it's useless to take supplements that your body can't digest, and this is a real issue with several of these nutrients. The medical techs at Goldshield went to some trouble to find a capsule that goes to work as soon as it hits your stomach, speeding these prostate helpers to their work zone.

**Look, I know how demanding life can be, leaving you with all kinds of stuff to do, and your prostate health comes last on the list.**

But your spouse, your kids and everyone else you care about all depend on you staying alive and productive... OKAY? Great! Just to get the ball rolling, let me invite you now to...

**Experience these great results RISK-FREE.**

That's right, just try **REJUVENATE™ Plus** now and you won't pay if it doesn't work. If you're not astonished and

If you value your life and  
your manhood,

**Give your Prostate a  
Fighting Chance...**

When patients come to see me at the Haimes Centre Clinic, many of them have already tried well known mainstream drug and prostate remedies. Yet, their prostate glands remain the size of small grapefruits, pinching off urine streams and making every waking moment a living hell. All of my patients say that they hate the idea of dangerous surgery, but they cannot stand the pain anymore. But, they're not enjoying their lives or having sex anymore.

Almost always, after treatment and by incorporating **REJUVENATE™ Plus** into their daily regimen, I have them urinating like a teenager and justifiably proud of their renewed sexual ability!
